

TEMPLE OF JUSTICE RATHER THAN WORLD ARMED CAMP OF WAR

Harding Draws Pictures of Two Plans for World Peace.

BULLETIN.
By Associated Press Leased Wire
Terre Haute, Ind., Oct. 16.—"Favorable" in the distribution of coal, due to failure to enforce provisions of the Cummins-Esch law, was blamed by Senator Harding in a speech here today for much of the present confusion in the coal situation and for the inability of coal miners in some localities to obtain constant employment.

BULLETIN.
By Associated Press Leased Wire
Greencastle, Ind., Oct. 16.—Replying to criticisms of his proposal for an association of nations, Senator Harding said in a rear platform speech here today that he already had been approached "informally" by a representative of France who asked that the United States lead the way to a world fraternity.

Indianapolis Speech.
In his address at Indianapolis last night, Senator Harding affirmed his belief that "America is fairly well united against the program and the policies which, for nearly eight years, have been forced upon them" and the "mismanagement of our domestic affairs" which have brought "us to the eve of disaster." He said in part:

"We have come, I believe, to the threshold of a new era. I ask you and I ask all Americans to look forward to a constructive and progressive program, to a practical program, to a program which has the characteristics necessary to any good American program, namely, that it shall have been made by the advice and the will of the people and shall have a united America behind it."

"I am sure I am right when I say that America is fairly well united against the program and the policies which, for nearly eight years, have been forced upon them, both as to the conduct of our relations with the rest of the world and the conduct of those affairs at home in which we ought to set an example to the rest of the world."

"As to the mismanagement of our domestic affairs, as to neglect, inefficiency, waste and wild experimentation, I believe there no longer exists any substantial difference of opinion. It is plain enough to the people of this country that both their economic and social life have been allowed to drift into stagnancy, and in other places have been overturned by unwarranted interference by an unwise administrative government, exercising unconstitutional and dictatorial powers. We have had too much government in business and not enough business in government. We have spent an amount equal to the cost of the civil war because of the attempt to manage our American railways. Happily we have already turned our backs on government ownership and operation of railway (shipping and communication lines).

To the Eve of Disaster.
We have seen an administration bring us to the eve of disaster in which we must all share, first in 1914, and now we are being led toward another crisis of stagnancy and unemployment. Those who are leading us toward a precipice now ask to be perpetuated. To this plea to remain in power I believe that the answer of the American people is already made. I believe that the American people hold it as a piece of common sense that no man shall be allowed to write a third chapter of the Democratic Book of Destruction. It is common sense for a selfish reason, namely, that we do not want American business, which is mostly small business and everybody's business, driven onto the rocks. But there is another reason of common sense which makes every good American draw back from the prospect of our continuing to set a bad example to a perplexed and distracted world. Americans are practical, and not flimsy idealists, and I believe I speak for them when I say that we have in this country of our more recent fame for example than for preaching, and a higher esteem for performance than for mere meddling.

Because this is the situation as we see it, can it be any wonder that our opponents have made a concerted attempt to turn the eyes of the American people away from the spectacle of mismanagement of their own affairs to an extensive discussion of America's obligation to the other nations of the world?

Sensible men and women will wonder at the assumption of those who, living no practical program to offer home, no constructive proposal to make for America, should be going to length and breadth of the land prosing that the league of nations as negotiated by the president, should be opted. Upon its face, this program not only tragically unwise, but from practical point of view, wholly impossible. We may as well be utterly frank and say that a Democratic president, even if he were elected, would be able to bind the American people nor mortgage their conscience and honor under Article X for the simple reason that he could not summon sufficient votes in the congress to the United States to support his program. His attempt would result another stalemate, and an unwilling America would find herself just where

Case Co. Officially Presents Figures to Prove Statement.

Col. W. B. Brinton, of Dixon, Vice President of the J. I. Case company and former president of the Grand Detour Plow company of this city, offers the following statement on farm credits:

It is utterly impossible for the farmer to produce large crops unless he has adequate financial backing and it is only through a large production of the necessities of life that a restoration of normal conditions may be attained.

The average manufacturing institution finds it possible to turn over its capital investment from one to seven times per annum. The farmer, on the other hand, being entirely dependent upon the slow processes of nature does well if he turns over his invested capital once in four years.

The aggregate value of one year's crops on any farm rarely exceeds twenty-five percent of the total amount invested in land, buildings, equipment, etc. Some of the crops are usually fed to live stock, thereby making the turn over even less frequent.

It is therefore imperative that the farmer receive a correspondingly long credit if he is to efficiently conduct his business.

The farmer should be granted a priority in credits for those things that are necessary for the successful prosecution of his business.

Women's Congress Advocated By Cox

By Associated Press Leased Wire
Cleveland, O., Oct. 16.—A national women's congress to frame a program of social legislation and administration for presentation to the president and congress was advocated here today by Governor Cox, democratic presidential candidate, in addressing an audience of women.

The candidate's address preceded his political speech here and followed a morning of campaigning in which he spoke at Sandusky and Elyria en route here from Detroit.

"From my experience in Ohio," said the governor, "you may know what to expect when I am elected president. There is much to be done for human welfare and social progress. With woman only at the threshold of political work in America I cannot call upon you for congressional action, but we can work in common purpose with common counsel and it would seem to me perfectly proper and fitting that a national meeting be called to representatives of every man's organization in America to formulate a program for congress and the executive for social legislation and administration."

Conversations with Japan End for Time

Washington, Oct. 16.—(By the Associated Press.)—Conversations between the state department and the Japanese embassy regarding the proposed anti-Japanese land legislation in California, have been temporarily discontinued and will not be resumed until after the November elections in which the California people will vote on land legislation.

State department officials explained today that postponement of the negotiations had been necessary by the assembling here of the International Communications Conference. Under Secretary Davis is chairman of the American commissioners to this conference and much of his time as well as that of other department officials is taken up with this meeting.

The conference is to continue several weeks and it was stated that consequently the conversations with the Japanese ambassador could not be resumed until after November 2.

Race Matinee is Postponed a Week

The race matinee planned for the Mineral Springs Park at Sterling yesterday afternoon, in which a number of Dixon horses had been entered, and which many Dixon horse lovers had planned to attend, was postponed until next Friday afternoon because of the rain. The owners of all the horses which had been entered have assured the promoters they will be on hand with their starters next week, and it is expected the races will be of great interest.

Commercial Flyer Coming to Dixon

Aviator Bob Blair, a commercial flyer, telephoned The Telegraph from Byron this noon that he would fly from that place to Dixon this afternoon, alighting at Barlow field, and would spend a few days here carrying passengers.

ASK ANOTHER INCREASE.

By Associated Press Leased Wire
Springfield, Ill., Oct. 16.—Application for the second increase in gas rates for Pekin, in four months, was made to the state public utilities commission this morning by the Central Illinois light company of Peoria. They ask emergency permission to raise the gas rate for the first 5,000 feet from \$1.75 to \$2.25. They allege that their gross income for the month of August was only \$59.79.

John Makeel of Harmon is in the city today transacting business.

CRISIS APPROACHING IN BRITAIN AS COAL STRIKE DRAWS NEAR

Government Works Speedily on Plans to Combat Disturbance.

By Associated Press Leased Wire
London, Oct. 16.—Preparations for the great industrial struggle precipitated by the decision of the British coal miners to cease work went grimly forth today.

The machinery established by the government to cope with the crisis was working smoothly at full speed. The miners, for their part, were equally active. Some of them, notably in Derbyshire and Nottinghamshire, already had ceased work at the end of their shifts.

The issue of gravest importance which was hanging in the balance was whether the railroad men and the transport workers would give their active support to the miners. This morning the executive committee of the national union of railway men decided to call a special conference of delegates for Wednesday next when the decision will be taken as to whether the railway men shall support the miners through a sympathetic strike. Meanwhile, the railroad employees will remain at work.

Stop Military Leaves
Military leaves have been stopped in the Portsmouth district owing to the strike. Considerable forces are maintained there, and the officers and men on leave have been recalled.

Some of the iron and steel works in the north of Yorkshire already have succumbed to the coal strike threat, with its implication of a prospective coal shortage. With few exceptions all the works on the Teeside were closed today, and about 20,000 men have been thrown out of employment. It is stated that all the works in this district will be idle after today.

Sheffield Hit Hard
From Sheffield comes the report that while some of the big factories have supplies of coal sufficient for three weeks, the staple trades will be immediately affected, as the average supply of coal is sufficient for one week only. At the end of that time it is estimated there will be 80,000 steel, iron, engineering, cutlery and electro-plate workers idle.

On the marine side, ocean liners have been instructed to obtain bunker coal abroad as much as possible. Reports from Liverpool state that while this may ease the situation the holdup of shipping will none the less be serious, and much disquietude is felt there.

Representatives of the United States shipping board stated this morning they had received assurances from the British ministry of shipping which gave the board reason for confidence that none of the American steamers would be tied up. The board sent a message to headquarters in America suggesting that all steamship sailing this way carry coal for the round trip.

LITTLE STRIKE IN PARIS

By Associated Press Leased Wire
Paris, Oct. 16.—The calling of the British coal strike has so far created little stir in France. The newspapers are not giving much prominence to the news and have omitted comment regarding the development.

As to the manner in which the strike may affect France, it is considered that the regular deliveries of German coal which have been made recently and a careful nursing of the supplies accumulated in previous months probably will enable France to get through the winter, even better, perhaps, than through many previous winters as far as the house holders are concerned. No doubt is felt, however that shipping and industry will be hard hit by the English miners' strike.

Ohio Labor Didn't Endorse Gov. Cox

By Associated Press Leased Wire
Dayton, Ohio, Oct. 16.—Adhering to the policy of the American Federation of Labor, the Ohio State Federation of Labor in convention here made no endorsement of political candidates. Through a misunderstanding it was reported on October 14, that the convention had endorsed Governor James M. Cox, the democratic presidential candidate.

A resolution endorsing Gov. Cox's candidacy was submitted to the legislative committee along with a number of other resolutions. The legislative committee in its report to the convention recommended non-concurrence in the Governor Cox resolution, pointing out that it was the policy of the American Federation of Labor not to endorse individual candidates and that such policy should be followed by the Ohio Federation. This report of the legislative committee was adopted by the convention.

Veteran's Funeral Sunday Afternoon

The funeral of J. B. Taylor, Grand Detour veteran who passed away at the Dixon hospital Friday morning, will be held at the Preston funeral chapel at 2:30 o'clock Sunday afternoon. The Ladies of the G. A. R. will give the flag service at the chapel, while the G. A. R. will be in charge of the service at the grave at Grand Detour. Members of the G. A. R. are asked to meet at their hall at 1 o'clock tomorrow afternoon to attend the services in a body.

OH, YOU SATURDAY!

BEG YOUR PARDON

REGISTRATION DAY
In Thursday evening's Telegraph it was stated the next day for the registration of voters would be "next Tuesday, Oct. 26." The word "next" inadvertently got into the item, resulting in its being confusion. The next and last registration day will be TUESDAY, OCT. 26.

Through misinformation The Telegraph last evening stated that James H. Taylor was the last veteran of the Civil war residing in Grand Detour. We are informed that there are three old soldiers residing there: John A. Schumaker, Henry Mon and Dr. Pankhurst.

Sixth Division of Red Army Smashed

Warsaw, Oct. 15.—(By the Associated Press.)—The smashing of the sixth bolshevik division by the Poles in a resumption of fighting on the Russo-Polish line is reported in tonight's official war office statement.

The Poles are extending their lines toward the boundary set by the armistice, which is shortly to become effective, and have reached the town of Krzywiec (probably Krzywiec, on the old Galician boundary southeast of Lemberg).

Russian regimental commanders have been taken prisoner by the Polish forces.

VILNA JEWS KILLED.

By Associated Press Leased Wire
London, Oct. 16.—(Jewish Telegraphic Agency.)—According to an official statement issued by the Lithuanian legation in this city, thirty Jews have been killed, scores of others wounded and a number of Jewish stores robbed in Vilna since the occupation of that city by General Zeligowski. The reports to the legation making these statements say that young men of the Vilna district are being flogged at the point of the bayonet to join General Zeligowski's ranks.

Urges All Miners to End "Vacations"

By Associated Press Leased Wire
Muskogee, Okla., Oct. 16.—John T. Wilkinson, president of district 21, United Mine Workers of America, late last night sent a circular letter to local unions in the state advising all miners now on "vacation" to return to work, in order that their demands for increased wages might be considered by the coal operators. Mr. Wilkinson said he believed the miners would accept his advice, although general return to work was not expected before Monday, he said.

W. R. C. BAZAAR.

The Woman's Relief Corps are very much gratified by the liberal patronage of the people of Dixon and vicinity. Last night was Elks night and the "Bills" certainly covered themselves with glory as well as hard work. Tonight will be the closing night and plenty of good friends have volunteered to assist.

TO MEET IN STERLING.
The Illinois Dental Assn., at its meeting in Aurora this week voted to hold its 1921 convention in Sterling.

Says Pope Doesn't Think Cork Mayor is Attempting Suicide

By Associated Press Leased Wire
London, Oct. 16.—Percy MacSwiney, the hunger striking lord mayor of Cork, was reported by the British prison doctor this morning as having passed a fairly good night, says a bulletin issued by the Irish self-determination league on the lord mayor's condition. This was the 65th day of lord mayor's strike.

"He was much brighter this morning," the bulletin adds, "but remains in a condition of severe weakness."

A person closely connected with the Lord Mayor MacSwiney stated that the MacSwiney family had received word through a church man who recently had a forty minute audience with Pope Benedict, twenty minutes of which were devoted to a discussion of the hunger strikers, that the pontiff does not regard the Irish hunger strikers as committing suicide, taking the attitude that the motive alone determines whether such self destruction is justifiable.

The Vatican viewpoint, was represented as being that MacSwiney and his colleagues are dying not because it is their desire to die, but because their deaths will be the consequence of the only course their consciences in the circumstances permit them to take.

Baltimore Needs One Game to Win

By Associated Press Leased Wire
St. Paul, Oct. 16.—Only one game separated the Baltimore Orioles from the minor league baseball championship when they met the St. Paul Association team this afternoon in their sixth game of the post-season series.

Baltimore, champions of the International league, has won four of the five games played, the Saints taking the final game of the four contests at Baltimore. Today's game was postponed from yesterday on account of rain.

To prevent a repetition of Wednesday's trouble, when fans showed-empire Stockdale with cushions after a close decision, the local management ordered that no cushions be sold in the remaining games of the series.

Cumbe was the tentative Saint selection for pitching duties while O'Brien was expected to go on the mound for Baltimore.

Higher Gas Rates Held Up Till March

(Special to The Telegraph)
Springfield, Ill., Oct. 16.—The proposed increased rates for gas service in Dixon and Geneseo, asked by the Illinois Northern Utilities Co., have been suspended by the state Public Utilities Commission until March 1, 1921, pending hearings and investigation by the commission into the reasonableness of the same.

AT DIXON HOSPITAL.

Harrison Cann of Oregon, who was taken to the Dixon hospital early in the week to receive treatment for hernia, is reported to be in critical condition.

Mr. and Mrs. Ward Miller went to Kenosha, Wis., this morning to remain over Sunday.

WEATHER.

SATURDAY, OCT. 16, 1920.
By Associated Press Leased Wire
Chicago and Vicinity—Generally fair tonight and Sunday; moderate temperature; gentle variable winds.
Illinois and Missouri—Generally fair and Sunday, not much change in temperature.
Wisconsin—Generally fair tonight and Sunday; slightly cooler in east portion tonight.
Iowa—Generally fair tonight and Sunday; stationary temperature expect cooler near Dubuque tonight.

FORECAST FOR NEXT WEEK.

By Associated Press Leased Wire
Washington, Oct. 16.—Weather predictions for week beginning Monday are:
Great Lakes and Upper Mississippi Valley—Unsettled and rains at beginning of week followed by generally fair and much cooler weather with freezing temperatures.

LOCAL TEMPERATURE.

The range of the local temperature during the 24 hours ending this morning was between 77 and 59.

Socialist Speaker Put on Trial Here

BULLETIN.
At 2 o'clock this afternoon, on motion of the attorneys for the defense, Justice A. H. Hanneken dismissed the case of the City of Dixon against George Koop, Socialist candidate for Lieutenant Governor, for want of evidence.

George Koop, arrested last Sunday for disturbing the peace, was taken before Justice George Hill this morning for trial. His attorneys took a change of venue to Justice Shaulis' court, the city countered by taking another change to the court of Justice Hanneken. The latter justice took the case into the county court, where he explained he was serving without jurisdiction, only one change being legal.

Koop's attorneys, moved for a dismissal of the charge, which was granted. Another warrant was then sworn out before Justice Hanneken and the defendant waived jury trial. Witnesses for the city were sworn and at noon four of these had testified. Court was adjourned until 1:30 when the case was resumed and it is quite probable that it will require almost all afternoon for the trial.

Republicans Plan Big Meeting Monday

Local republicans are making plans to give the county campaign a great impetus in the opening meeting at Lee Center Monday evening, and many will attend from this city. Dr. H. G. Wright, of DeKalb, candidate for State Senator, and John H. Byers of this city, candidate for representative, will be among the speakers.

Deputies Miller and Robinson went to West Brooklyn this afternoon on legal business.

SEVEN PIERS OF NEW R. R. BRIDGE ARE COMPLETED

Contractors Rushing Work Before Cold Weather Comes.

Seven piers of the new Illinois Central bridge have been completed and the cribs are being placed for several others. The work is progressing swiftly, the contractors rushing it as rapidly as possible before the arrival of cold weather.

A contractor from Centralia, Ill., has a large force of negro laborers quartered north of the city, where steam shovels are digging away, the grades along the right of way, the rock and dirt being used in the fills on both sides of the new bridge. The approaches to the bridge have been completed and the forms removed. Rock and dirt are now being hauled from north of the city to complete the deep fills on both side of the river. The Illinois Central has sent a train crew to Dixon to haul the dirt from the shovels to the fills.

This work will require considerable time and the contractor is rushing its activities in an effort to complete the work as far as possible before a freeze halts or delays progress.

New Yorkers Kick on St. Lawrence to Lakes Water Route

By Associated Press Leased Wire
Albany, N. Y., Oct. 16.—Strong opposition to the proposed St. Lawrence shipway channel connecting the great lakes and the Atlantic ocean was voiced at a hearing given here today by the international joint high commission, which is investigating the project. In its stead representatives of chambers of commerce in the Hudson river valley favored the state barge canal-Hudson river route.

The proposed St. Lawrence waterway project, these representatives and those of the New York state chamber of commerce declared, would hinder the development of the state barge canal and the Hudson river improvement. A special investigating committee of the New York state chamber of commerce and the New York state waterways association also went on record as opposed to the project.

The special investigating committee of the chamber of commerce declared that investigation has proved that benefits which would be derived from the proposed St. Lawrence waterway will not be sufficient to justify the expenditure by the government of \$50,000,000, the estimated cost.

"In the opinion of your committee the St. Lawrence canal will not afford any genuine relief," the investigating committee's report said. "Long before the St. Lawrence project could be completed, it is reasonable to expect that our railroads will have made up their deficiencies in equipment and terminal facilities and that the barge canal will be provided with facilities sufficient to make it a definite factor in service to shippers. There are already in sight greatly enlarged facilities along the Atlantic seaboard."

Mail Aviator is Killed at Batavia

By Associated Press Leased Wire
Omaha, Neb., Oct. 16.—Bryan McMillen, of Dallas, Texas, air mail pilot of the Chicago-Omaha service, was killed when his plane fell today near Batavia, Ill., according to information received here from the superintendent of the air mail service at Chicago.

The report of the accident was received by W. L. Votaw, superintendent of the local division. McMillen, Mr. Votaw said, had only been in the Chicago-Omaha service for about a month. His wife came here a few days ago from Dallas, to make her home in this city.

BURNED TO DEATH.

By Associated Press Leased Wire
Aurora, Ill., Oct. 16.—A unidentified flyer carrying United States mail fell today near Batavia, Ill., 37 miles west of Chicago and was killed.

The pilot was seeking to make a landing in the early morning fog and his machine struck one of a low telephone lines running across the prairie. The aeroplane turned over and as it hit the ground the gasoline tank exploded. The driver was strapped in and burned to death.

George White, a farmer and his wife saw the flyer hit the telephone wires and ran to his assistance but the flames were so intense they could not get near him. The flyer came from Chicago apparently as he was going west.

Warns Republicans to Watch for Many Venomous Attacks

Chicago, Oct. 16.—Captain Victor Heintz, Republican campaign director in the central region, issued a statement to local Republican organizations throughout his district today announcing that "we expect the Democrats to launch many venomous attacks at the last moment. Because there is not time for these to be dealt with from headquarters we must look to individuals and local organizations to take care of them."

After advising the local organizations to be on the alert, he added:

"Let no one be overconfident. All is going well, but we must keep right on until we have finished. From my home city, Cincinnati, I have word that we will carry Ohio by probably 150,000, but we will not quit work till the votes are all in and counted."

REPUBLICAN SPECIAL TRAIN TO STOP HERE FOR MEETING OCT. 25

Contractors Rushing Work Before Cold Weather Comes.

All State Candidates to Spend Half Hour in Dixon That Day.

All of the Republican state candidates, Chairman Frank L. Smith of the State Central Committee, and a number of other speakers, men and women, will visit Dixon on Monday, Oct. 25, according to an announcement sent out by the state committee, which gives the itinerary of the special train which will cover the state in eight days, commencing Monday, Oct. 18.

The schedule of the train for Monday, the 25th, is:

Pontiac, 7:50 a. m., 8:10 a. m.
Dwight, 8:45 a. m., 9:00 a. m.
Joliet, 10:00 a. m., 10:40 a. m.
Morris, 11:10 a. m., 11:25 a. m.
Channahon, 12:00 p. m., 12:15 p. m.
Mendota, 1:30 p. m., 1:45 p. m.
Dixon, 2:30 p. m., 3:00 p. m.
Sterling, 3:20 p. m., 3:35 p. m.
Polo, 4:35 p. m., 4:50 p. m.
Forreston, 5:15 p. m., 5:25 p. m.
Freeport, 5:45 p. m., 6:15 p. m.
Rockford, 7:30 p. m., night.

To hold a total of ninety meetings in eight working days—an average of a little better than twelve a day—is the task the Republican candidates have set for themselves, beginning next Monday. Their special train will make an early start—7 o'clock a. m.—on the morning of October 18, from the Illinois Central station, Chicago. The party will return to Chicago at midnight on Tuesday, October 26.

This trip will be the most comprehensive of the kind ever undertaken in Illinois. The candidates will reach every Congressional district, and virtually every county in the state. They will traverse the length of the state twice and cross it four times.

A list of the night stops will show how thoroughly the state is to be covered. The first will be at Springfield, after a run through the east central part of the state Monday, October 18; the second, October 19, at East St. Louis; the third at Mt. Vernon, after a swing down to Cairo, October 20; the fourth at Danville, after looping the loop through southeastern "Egypt," October 21; the fifth at Quincy, following a run all the way across the state, October 22, and the sixth, Saturday night, at Streator, covering most of the military tract, October 23.

The special will "lay up" at Streator over Sunday, but there will be another early start Monday morning, and after swinging east almost to the Indiana line, the special will swing west again almost to the Iowa line, and then back east for a night meeting at Rockford, October 25, and for the final day will work back toward Chicago and close the trip with a night meeting at Aurora, October 26. After the meeting there the candidates will run into Chicago.

Fans Assured of Good Game Sunday

The football team composed of members of Dixon Post No. 12 of the American Legion, will officially open their schedule here tomorrow afternoon when they will meet the fast Rockford Specials at the Brown Field. The Legion team has completed a strenuous week of scrimmage practice and will present a strong lineup against the stars from Rockford tomorrow.

The sale of season tickets for the schedule has been progressing very satisfactorily. The tickets are not all sold, however, and there is an ample supply on hand to accommodate every local fan. The Legion has been to considerable expense in purchasing uniforms and equipment for the team and is entitled to the patronage of Dixon citizens in supporting the best football eleven that has been organized here for many years.

Amboy Milk Plant to Start Nov. 1st

The work of placing machinery in the Amboy Milk Products Company's new cannery is going forward as rapidly as possible, and it is planned now to have the factory open for business November first. The private electric power plant and refrigerating machinery are in operation and the most important of the equipment is in place. There is much yet to do, but it is thought enough can be accomplished in the two weeks to have the plant ready to receive milk on that date. The full capacity of the plant will be about 100,000 pounds of milk daily, but it has not been planned to run at full capacity in the beginning. For the present, from 10,000 to 15,000 pounds of milk daily will be received and put up.

Dixon Eleven Off to Meet Sycamore

The Dixon Union High school football team with Coach Vezina and Principal Potter left this morning for Sycamore, where this afternoon they will play their second game of the schedule, meeting the high school team of that city. The Dixon team went away feeling quite confident of another victory after number of workouts and scrimmages with much heavier American Legion team here. The Sycamore team is probably heavier than the Dixonians but it is felt speed will overcome this difficulty, according to the high school players.

Today's Market Report

(By Associated Press Leased Wire.)

Heavy Trading in Grains This Morn

By Associated Press Leased Wire
Chicago, Oct. 16.—Trade in wheat was heavy at the start today, there being heavy and persistent buying by a strong commission house and prices advanced rapidly. After opening 1c to 2 1/2c lower with Dec. 2.16 to 2.18 and March 2.10 1/2 to 2.11 1/2, the market rose swiftly above yesterday's finish, but when a house that usually acts for a leading New York trader went on the selling side a break from the high point occurred.

There was a general rush to buy corn at the start but on the bulge there was free selling, the local element being higher with Dec. 89 1/2 to 90c and May 93 1/2 to 94 1/2, a sharp reaction set in and prices descended. Oats followed other grains, initial quotations being 1/4 to 1/2c higher, with Dec. 57 1/2 to 58 1/2 and May 62 to 62 1/2c. Provisions were fairly strong because of the strength in hogs.

Wheat continued under pressure, the investigation talk seemingly to have been forgotten, and the close was near the lowest point of the day, being 4 1/2c to 6c under yesterday's final figures with Dec. 2.13 1/2 to 2.14 1/2 and March 2.07 to 2.07 1/2.

Later the break in corn was checked, the trade devoting its attention to legitimate market influences, and the finish was unchanged to 1/4c lower, with Dec. 87 1/2 to 88 1/2 and May 91 1/2.

Weekly Grain Review.

By Associated Press Leased Wire
Chicago, Oct. 16.—Organized efforts of farmers to withhold grain and to agitate for higher prices, have gone hand in hand this week with a big ascent in values. Compared with a week ago, wheat this morning was up 2 1/2c to 2c, corn had gained 3 1/2c to 3c and oats 2 1/2c to 2c. In provisions there was a rise varying from 55c to \$3.00.

Rapid developments indicating that the producers' struggle announced as aiming to force the wheat market up to \$3 a bushel was an energetic one had immediate strengthening effect, despite assertions of former wheat Director Barnes that war prices on everything were becoming things of the past. His position was widely assailed on the ground that grain was being sold below cost. Subsequently, word of serious adverse crop conditions in India counted as a further bullish influence. At this stage, the United States government report on farm reserves led to a sharp setback in prices, but was more than offset afterward by action of President Wilson starting an investigation of charges from Governor Allen of Kansas that the wheat market had been artificially depressed and that there was urgent need of an embargo on imports of wheat from Canada.

Export buying of corn gave independent strength to corn and oats. Big clearances of land and meats for Europe lifted provisions.

Chicago Livestock.

By Associated Press Leased Wire
Chicago, Oct. 16.—Cattle receipts 3600; compared with week ago choice steers 15 to 25c lower; other steers and butcher cattle unevenly a dollar to \$1.50 lower; canners and bulls 25c lower; calves \$1.50 to \$2 lower; best westerns about steady; others mostly 50c to 75c lower.

Hogs receipts 5000; mostly steady to 15c lower than yesterday's average; closing weak on hogs weighing 180 pounds and down; top 15.90; bulk light and butchers 14.40 to 15.85; bulk packing sows 14.50 to 14.65; pigs mostly 25c lower; bulk desirable kinds 14.50 to 14.75.

Sheep receipts 6000; fat lambs closing 25 to 40c lower than week ago; aged fat sheep and yearlings steady; feeding and breeding stock steady.

CLEARING HOUSE REPORT

New York, Oct. 16.—The actual condition of clearing house banks and trust companies for the week shows that they hold \$26,256,020 reserve in excess of legal requirements. This is a decrease of \$9,948,960 from last week.

Mr. and Mrs. Wm. Dumphy and son Lefty of Harmon attended the funeral of the late Albert McDermott here today.

TEMPLE OF JUSTICE RATHER THAN WORLD ARMED CAMP OF WAR

(Continued from Page 1)

she has been ever since the bungled negotiations at Paris.

Wilsonian League Rejected.

The reason that a Democratic president could do nothing toward putting into effect our membership in the league of nations, just as it stands, is that, behind the representatives in Washington, the American people have rejected membership of that kind. They rejected it long ago; they will continue their refusal to enter the Paris league as it stands. The proposal of our opponents that the American people shall accept it as it stands, without changes, is an additional affront, and the American people are justified in asking those who make it—"How many times must we say NO?"

I have said repeatedly that, when elected, I will immediately summon the best minds in America, representing all American opinion, to consult and advise the United States as to the present association of nations, to modifications of it, or substitutes for it. I have said that I will consult the people's representatives, duly elected, just as the constitution bids me to do. I repeat now that this will be my course, and it will be taken by me because it represents the American spirit, because it is the only lawful and appropriate course that a president should take.

One very good reason why our country can not now specify a plan for our relationship in an association of nations is because the world's affairs are in a state of flux and a detailed plan today may become useless tomorrow, and embarrass those who have committed themselves to carry it out.

Would Prevent Wars.

Let me say to the American people that I am committed to a policy of American doing everything that she can, acting either independently, or with other nations, to prevent future wars. I place only two qualifications upon her contribution. First of all, her contribution should actually be something to prevent war. We must not involve ourselves in a form of association which actually creates more dissension and more wars than it suppresses or avoids.

The second qualification I place upon America's contribution, and I have said this unceasingly, is that America must retain the right to exercise her own conscience. I have said, over and over again, and I repeat now, that I will not be deceived by the argument that we could agree to the Paris league, and then creep out of our bargain to send our boys to Europe at the call of a super-government.

It is true that congress could refuse, directly or indirectly, to respond to the world council's call for armed forces, but that would be the repudiation of a sacred moral obligation which we would take in accepting Article X. Such a proposal ranks among the most contemptible ever presented to an honest people. I am against it, heart and mind, and soul. I am in favor of the prevention of war, but I am not in favor of the prevention of war by a means which I believe to be ineffective at the cost of American independence and American honor.

I make the suggestion to the American people, and through them to my opponents, that it is better to build up peace through justice than to promote the alliance of armed forces; that it is better to promote understanding and foster common interest, and to seek friendly understanding, and to establish common council and turn the light of world opinion upon developing controversy, than to seek super-government and the suppression of war by force. We picture the temple of world justice rather than the world's armed camp of war.

For Cooperation.

I am for co-operation among nations. I know full well that America, whether we look to it merely from sentiment, or whether we look at it from the point of good sense, must take her part in the world's affairs. We are not unmindful of the new order, and we have never failed humanity nor turned our backs on real progress. But we hold there is no need of an American surrender of sovereignty to an play a righteous nation's part, that super-government is neither necessary nor practical that we are not called to mortgage America to keep faith with mankind.

It is one thing to recognize the new order in the world, and voice America's willingness to play her part, and quite another to cry out against a proposal to destroy every precious American inheritance. The senate and our party have recognized much good in a new world fellowship and co-operation, but we insistently reject all that menaces America. Article X is a menace, and super-government is repugnant to every American ideal.

Let Us Be Practical.

To be practical we must separate the wheat from the chaff. More than that, we must tell the American people what has already been done, and that I have already done so, and that the chaff insisted upon by the Democratic platform and the Democratic candidate, has long ago blown down the wind toward oblivion.

Few Oppose New Relationship.

There is no issue drawn between the president's league and no league or association. There never has been. But we are against the league which was negotiated and intervened with the peace treaty in defiance of friendly American warning.

Few people in America are opposed to a new relationship for nations. In the senate we went a long way toward accepting the president's league by safeguarding the interests and freedom of America. But the president and a body of his followers rejected the covenant after our own republic was safeguarded. That did not raise the issue of the league or no association, but it did raise the issue between super-government and free America.

Europe has admitted the supreme

Perhaps no group of men in the world are so conscious of their bodies as the sailors of the United States Navy. The fresh salt air and the strenuous life of the sailorsmen has a tendency to make the mind and body active and full of the stuff of Kluge and Kipling. The average layman believes that when a ship leaves port, it leaves all athletic sports behind. In direct contrast to this opinion the sailorsmen takes his athletic gear to sea with him and has as much sport on the broad decks of the battleship as he does on the athletic field ashore.

The photograph shows a group of laughing sailors passing the medicine ball. At first the group makes a

wide circle, but as the ball is continually snapped back and forth, the circle narrows until the medicine ball is hidden and the only knowledge the spectators have that a game is in progress, is the continual smack of the medicine ball against the brawny chests of the participants.

Often the game is enlivened by having a man stand in the center of the circle, who endeavors to catch the ball before it is delivered to one of the men in the circle, succeeding in doing so, he takes his place in the circle and the man who threw the ball replaces him.

Obstacles are only made to overcome, so the Navy has an athletic field that goes to sea.

error. Europe has said there can be no effective league without us, and has asked that America suggest the new order and take the lead in making such a plan for proper association and co-operation that we may serve the world and be secure at home.

ROCHELLE

The American Legion football team will play Sterling here on the west end park gridiron Sunday afternoon.

The second number of the Century Festival series is booked for the evening of Nov. 9, the Kenilworth Ladies' Glee Club. This is a singing and playing quartette featuring special musical instruments. The opening number of the course the Normandy Singers played to crowded houses at the Majestic theater Tuesday afternoon and evening.

The joint Sunday School convention of Pine Rock and Lafayette townships will be held in Chana, on Sunday, Oct. 17. Isaac Canfield is township chairman.

The program:
1:30—Song by Congregation.
1:40—Best Results from Adult Division—Mrs. George Henderson, Holcomb.

Song by Quartet.
2:30—Missions in Our Sunday School—Rev. Earl E. Zeigler, Rochelle.

Solo.
3:40—Teacher Training—Rev. Geddings.

Song by Quartet.
3:50—Sunday School Standards—W. B. Rankin, Rochelle.

Song by Congregation.
C. W. Gustafson was a Chicago passenger Monday.

The third degree in the Masonic order was conferred upon Elmer Dunning Monday evening.

The new Crescena hall room was thronged with dances at the opening Monday evening. Dalstrand's orchestra of Belvidere generated the incentive for dancing. The hall has been redecorated throughout and is just a little finer than any other in the city. Next Tuesday evening the Crescent orchestra will play.

NACHUSA

Mr. and Mrs. Scott Spangler and daughter Elsie were Dixon visitors on Saturday evening.

Mrs. A. Hoff entertained at dinner Sunday Mr. and Mrs. Samuel Hoff of Nachusa and Mr. and Mrs. James Lookingland of Franklin Grove.

William McCulloch returned home Tuesday from Pennsylvania where he has spent several weeks visiting friends and relatives.

Mrs. George Weidman and daughter Mrs. Charles Shippert, were Dixon visitors Monday.

Carl H. Kohl, a highly respected citizen of Nachusa, died Saturday, Oct. 9, at the home of his son, Gus Kohl. Funeral services were held on Tuesday morning at 9:30 with interment at Morrison.

O. R. Eicholtz is spending a few days in Chicago.

Harry Weigle submitted to an operation Monday morning at the Dixon hospital.

Rev. E. H. Gilmer went to Chicago Tuesday to attend a special meeting of the synod of the United Lutheran church of Illinois.

Mr. and Mrs. Roy Crawford and children were Dixon visitors Tuesday.

Mrs. E. D. Weigle visited with friends in Dixon Wednesday.

Mrs. Bowden of Franklin Grove visited Thursday at the home of her daughter, Mrs. Albert Bettin.

Mrs. Mary Shippert and daughter, Mrs. J. T. Emmert motored to Dixon Thursday evening.

Mrs. Boyd Farver and daughter Miss Rita visited a few days recently at the home of Mrs. Farver's parents, Mr. and Mrs. A. Stoult.

Mrs. H. W. Eicholtz was shopping in Dixon Thursday.

Mr. and Mrs. John Plantz and daughter Lucille, Misses Bertha and Grace Uhl, Mrs. O. R. Eicholtz, Mrs. G. Emmert, Mr. and Mrs. Robert Herbst and daughter Inez and Mr. and Mrs. Roy Crawford and family attended the chicken social at St. James church Tuesday evening.

Carl Blum was a business visitor to Dixon Thursday.

Jack Taylor returned home Thursday evening driving out a new H. C. S. touring car from the factory at Indianapolis.

TWO BIG GAMES DRAW ATTENTION OF FOOT BALL FANS THIS P. M.

Illinois - Iowa, Wisconsin - Northwestern in Limelight.

By Associated Press Leased Wire
Chicago, Oct. 16.—Football stepped into a real mid-season trend in the middle west today with every western conference eleven and teams from all the other more important colleges scheduled to play.

Eight of the big ten teams clashed with each other, while two met smaller elevens. Standing out above all the other contests, however, were those between Iowa and Illinois at Urbana and Northwestern and Wisconsin at Madison. In other games Indiana was pitted against Minnesota, Purdue faced Ohio State while Michigan played the Michigan Aggies and Chicago had a comparatively easy foe in Wash.

Big Game at Urbana

The fracas at Urbana was the first conference game of the season for Illinois, last year's title winner, but the second for the Hawkeyes, which already had a victory over Indiana. It was thought likely that the game might develop into a forward passing duel, both teams being strong in aerial attack.

Northwestern, fresh from the biggest football upset in the middle west in years—its 17 to 0 victory over Minnesota last week—was watched particularly in the game with Wisconsin to see if last Saturday's showing was merely a flash or an indication of championship strength. It was Wisconsin's first championship tilt of the season.

The most important game in the middle west outside the conference was that between Nebraska and Notre Dame. It was their fifth clash, each team having been victorious twice.

In the Missouri valley conference Ames met Missouri, but the former's defeat by Coe earlier in the season made the Missourians heavy favorites. The other eleven faced smaller colleges.

ILLINOIS CRIPPLED

By Associated Press Leased Wire
Urbana, Ill., Oct. 16.—With a crippled list that includes four regular linemen, but with every man filled with an indomitable fighting spirit, the Illinois will meet Iowa on Illinois field at 2:30 o'clock this afternoon in a battle that may decide the western conference championship. The loser today will be practically eliminated from the race for western football highest honors.

The probable lineup:

Illinois	Iowa
Helstrom	Belding
Ems	Slater
Hughes	Kaufman
Depler	C Longley
Mohr	L G Meade
Olander	L T Block
Carney	L E Kadesky
B Fletcher	Q B Kelly
Walquist	R H G Devine
Peden	L H A Devine
Crangle	P B Locke

HARMON

Mr. and Mrs. Louis Bontz were business callers in Dixon Saturday.

Miss Helen Dietz left for Chicago the first of the week where she will visit with relatives.

Mrs. Wilbur of Montmorency was a guest Wednesday of Mrs. Guy Mannon.

Edward McCormick went to Chicago the first of the week for a vacation.

The Harmon Household Science club met on Wednesday afternoon with Mrs. Guy Mannon. The roll call was answered by "My Winter Preparations."

Mrs. Jerry Mannon read the paper of the afternoon. She chose as her subject the Welfare of the Home. The paper was very well written and was greatly enjoyed by those in attendance. After the regular business matters had been dispensed with, the hostess introduced several autumn games which were entered into with much zest and gaiety. At the close of the afternoon delicious refreshments were served. Mrs. D. T. Hill and Mrs. Wilbur of Montmorency were the guests of the occasion.

Miss Maginnis spent the week end with her parents in Dixon.

Mrs. William Kramel entertained friends from Walnut last Saturday.

Mr. and Mrs. Charles McCarter have returned from their visit to Rantoul and Champaign.

The Harmon Social Circle will meet Thursday afternoon, Oct. 21 with Mrs. Kramel.

Mr. and Mrs. Chris Smith returned to their home at Smithland, Ia., after a visit with relatives at Harmon and vicinity.

Mrs. A. E. Newberry who has been a guest at the A. B. Clatworthy home will return to Quincy the first of the week.

Mrs. D. T. Hill and William Hill motored to Nelson Monday, spending the day with Mrs. Mary Finkenbinder.

R. A. M. SPECIAL

Society

Monday
Peoria Ave. Reading Club—Mrs. G. C. Loveland.
O. E. S. Parlor Club—Masonic Hall.
Tuesday
Phidian Art Club—Mrs. Barlow.

ADDITIONAL SOCIETY ON PAGE 2.

ELECTED OFFICERS—

The Brotherhood of St. Paul's Lutheran church met in regular session in the church last evening. Among other items of business the annual election of officers occurred which resulted as follows:

President—L. C. Johnson.
Vice President—Clarence Wickey.
Recording Secretary—E. G. Robinson.
Corresponding Secretary—Owen Clymer.

Treasurer—George Eichenberg.
After the business session refreshments of ice cream, cake and coffee were served. The choir who met last evening was invited to enjoy the social hour with the Brotherhood.

VISITING IN DUBUQUE—

Misses Mabelle Connerman and Bessie Mismann, of Dixon, and Winnie Fredericksen, of Garden Prairie, Ill., and Jla Rice and Irene Torgeman, of DeKalb, are spending the week-end at a house party given by Grace Zimmerman of Dubuque, leaving Friday evening and returning Sunday evening.

HALLOWEEN SOCIAL—

Riverside school will give a Halloween entertainment and basket social at the Kingdom church on next Friday, Oct. 23. The program will be very entertaining after which the baskets will be sold by either ghost or goblin. So come and bring your best girl or some other fellow's best girl with her basket and be entertained by the witches.

S. S. TEACHERS MET—

The officers and teachers of the Congregational Sunday School held their monthly meeting at the home of Mr. and Mrs. A. L. Wilson, last evening, Oct. 22. The program will be the business of the meeting was attended to, the remainder of the evening was spent in games and a social time.

AT IVES HOME—

Mr. and Mrs. W. H. Ives of Byron, Mr. and Mrs. Arthur Ives, of Algonia, Ill., and Miss Josephine Ives of Evanston are spending the week end at the C. H. Ives home.

MARRIED IN FREEPORT—

Fred E. Bost and Estelle Loveland were united in marriage in Freeport, Friday, Oct. 17. They will be at home to their friends at 78 Carroll avenue, that city.

TO VISIT IN CHICAGO—

Commissioner Frank D. Palmer will go to Chicago tomorrow morning for a visit of a few days with his children. He will be at his office Tuesday morning.

HOME FROM VISIT—

Mrs. Clarence Stitzel and little son have returned to their home in Nelson after a month's visit with relatives in Detroit.

WEEK END HERE—

Miss Josephine Nichols of Rochelle is spending the week end with her parents, Mr. and Mrs. A. H. Nichols.

HOME FROM TRIP—

Mr. and Mrs. A. H. Nichols have returned from a trip to Boston and Plymouth, Mass.

O. E. S. PARLOR CLUB—

The O. E. S. Parlor club will meet Monday afternoon at Masonic hall and all members are urged to be present.

101 POLLOI CLUB—

The 101 Polloi Club will meet Monday afternoon with Mrs. David Brosn.

OBREGON AT TEXAS FAIR

Dallas, Texas, Oct. 16.—Alvaro Obregon, president-elect of Mexico, will be central figure at the state fair of Texas here yesterday. It was "International day" at the fair and the Mexican leader had a busy program before him. He will depart for Mexico City tomorrow.

REVIVALS ARE ENDED

The revival services conducted by P. Pierson at Pine Creek Christian church closed Thursday with ten conversions. The church was benefited many ways by the splendid sermons presented by the Polo pastor.

WANTED—COPIES OF OCT. 4th THIS OFFICE.

Stately
The stately dignity of this establishment has built for us a reputation on which we are quite naturally proud. Our equipment is modern and our staff competent.

WALTER L. PRESTON
Identifying & Ambulance Service
PHONE 1011 78-RE-3228
125 EAST FIRST ST. (opposite Chapel)

Sister Mary's Kitchen

To wash the ticking on feather pillows with out filling the entire house with fluff is no trick at all if one knows how. Make a bag of old muslin large enough to hold the feathers from one pair of pillows. Shake and work the feathers away from one corner of the pillow. Rip the ticking about four inches in this corner quite free from feathers. Sew the muslin bag all up except for four inches at one corner. The pillow and bag are then sewed together at these four inch openings and the feathers shaken from the pillow into the bag.

Menu for Tomorrow

BREAKFAST—Fresh fruit, boiled bacon, diced potatoes warmed in cream sauce, corn muffins, coffee.

LUNCHEON—Succotash, pear salad, hot rolls, tea.

DINNER—Chicken and pork chop pie, mashed potatoes, creamed onions, tomatoe salad, apple pie, coffee.

My Own Recipes

Unless very young chickens are used in the chicken pie, they must be parboiled first. When cooking chicken in a pie, the gasb out in the crust must be large and wide enough that there will be no danger of it scolding in the baking. A gas is formed which must escape.

SUCCOTASH
4 ears sweet corn
1-2 pint lima beans
1-2 cup cream
1 tablespoon butter
1 teaspoon salt
1-4 teaspoon pepper.
Cut corn from cob. Cook beans in water to cover for ten minutes. Add corn and cook until vegetables are tender. Add cream, butter, salt and pepper. Cook long enough to melt butter and thoroughly heat cream. The corn and beans should be cooked in as little water as possible to prevent burning, and constantly watching is necessary, as corn cut from the cob sticks very easily.

PEAR SALAD.
2 large pears
1 orange
3-4 cup sugar
1-4 cup water
1-2 cup black walnut meats
1-2 cup seeded grapes
boiled dressing
1-2 cup whipped cream.
Pare pears and cut in halves. Remove core. Make a sirup of the sugar and water. Add pears and orange cut in thin slices. Cook until the pears are transparent. Remove from sirup and cool. Cool sirup until it reaches the jelly stage. Fill the cavity of the pears with this jelly and slices of orange. Arrange on hearts of lettuce, pour over boiled dressing and top with a spoonful of stiffly beaten unsweetened cream.

Women will go to great lengths to save a penny and too often to equal great lengths to spend a dollar.

FIRE CHIEF IS DEAD.

By Associated Press Licensed Wire
Springfield, Ill., Oct. 16.—Chief Peter Jacobs of the Springfield fire department died this morning. He had held the position almost six years. Assistant Chief Matt Cullen, the oldest fireman in point of service will succeed him, temporarily. Chief Jacobs came to Springfield from Quincy. One daughter survives him.

Mr. and Mrs. George Waitros and son of Chicago are visiting in the city for a few days.

Brief Summary of Last Night's News

ZURICH.—According to an announcement by the German foreign ministry a great revolt is reported to have started in Moscow. The Kremlin there is declared to have been invaded.

NEW YORK.—Jack Sharkey, New York bantamweight, was awarded the judge's decision over Charley Ledoux, bantamweight, champion of France, in a fifteen-round bout.

WARSAW.—General Joseph Pilsudski, president of the republic of Poland, tendered his resignation, provisionally, as chief executive.

NEW YORK.—Sixty thoroughbred horses, with an estimated value of \$500,000, arrived from England on the steamship Michigan.

Cheyenne, Wyo.—Flying at the rate of 148.38 miles an hour, Pilot Yeager of United States postal airplane number 177 made the 400 miles from Salt Lake to Cheyenne in 178 minutes' actual flying time, said to be a record for the trip.

DAWSON, Y. T.—Archdeacon Hudson Stuck, the first man to scale Mt. McKinley, was buried Monday in a humble cemetery at Yukatan, Y. T., according to advice.

BINGHAMPTON, N. Y.—"Babe" Ruth sustained a fracture of a small bone in his left wrist in a game; at Onondaga between his "all stars" and the Endicott Johnson team of this city.

CORLIN, KY.—Captain Beavers, pilot, and I. B. Conolly, machinist, members of the Barbourville, Ky., aero club, fell one thousand feet in a burning aeroplane near here, but escaped injury, leaping as they approached the ground.

YORK, NEB.—Theodore Nordlund, high school football player, died here as a result of injuries sustained in a game between schools of Polk and St. Romanburg last Saturday.

PARIS.—The Temps prints a dispatch from New York saying the Standard Oil Company has founded a branch in France.

WEST BROOKLYN.

Mr. and Mrs. Henry Hoerner motored up from Peru Tuesday.

Mr. and Mrs. Clarence White returned to their home in Dixon after a few days' visit here at the E. C. White home.

The firemen held their regular monthly meeting at the town hall on Monday evening.

Mr. and Mrs. M. J. Bloesche motored out from Aurora Sunday.

John S. Keller was here Thursday from Mendota on business.

Mr. and Mrs. Julius Arnold and Mr. and Mrs. George Brandt were here from Viola on Sunday and spent the

day visiting at the home of Mr. and Mrs. H. A. Bernardin.

The reduction sale at the Paul Halbmaier farm Thursday was well attended in spite of the unexpected rains, and things sold remarkably well.

Wallace Hicks motored to Aurora Friday.

L. W. Griffith was here from Amboy the latter part of the week and held a chicken culling demonstration at the Andrew Gehant farm. The next demonstrations in the community will be at the J. W. Their and C. A. Jeanblanc farm.

Mr. and Mrs. Edward Foley were here from LaSalle Sunday and spent a few days visiting at the home of her parents.

Word comes from West Point, Neb., of the death of J. H. St. Clair on Sept. 23rd after a lingering illness of some months. He had attained the age of 78 years and was well known and highly respected in this community having made this his home until he moved to Nebraska and was a brother of Mrs. W. A. Mireley.

Mr. and Mrs. Arnel Henry returned Wednesday from Dixon where they purchased a modern residence on N. Dakota avenue. Mr. and Mrs. Henry will not, however, move for the present.

Frank Jordan was in the city over Sunday visiting at the home of his sister.

The dance at the opera house on Thursday evening was not as largely attended as usual owing to the inclemency of the weather but there were some forty couple present who had a very enjoyable time.

Martin Halbmaier and F. W. Mayer unloaded another carload of potatoes here making a total of three carloads distributed at this point.

Joseph Sonderoth returned Tuesday from Dixon where he was excused from service on the jury.

Mrs. Jerry Zentz and children returned to their home near Paw Paw after a few days' visit at the home of her sister, Mrs. Peter Dolan.

Mr. and Mrs. Walter Johnson returned by auto to their home at Waterloo, Iowa, after a two weeks' visit at the home of their daughter and other relatives.

Mrs. J. W. Their was able to return home from Rochelle where she had undergone an operation and is in a much improved condition.

John Fassig is erecting a new garage on his property.

W. A. Halbmaier was able to be about again Sunday after being confined to his home for a week with an injured knee.

Frank Delhotal and Oliver Gehant motored to Dixon Wednesday where they were interested in a suit over hog remedies which was settled among themselves.

Cole & Jacobs shipped a carload of horses to Chicago market the fore part of the week which they had bought up through the vicinity.

Frank Mehlausen was here from the vicinity of Ashton Tuesday.

Mr. and Mrs. A. B. McCrea and family motored out from Aurora Sunday.

Mr. and Mrs. Frank Galliseth have purchased the O. Moom truck farm

just this side of Dixon and will make their home there after the first of March.

The Holstein cattle sale at the Grant Edwards farm was a fine success and in spite of the uncertainty of the future cows brought high prices. Mr. and Mrs. Edwards are planning upon retiring after March 1st when their son, Bernard, will care for the farm.

POLO

James Hawkins and Roy Hled went to Oregon Monday on business.

Mrs. Wilm Lyon was a Dixon visitor on Monday of this week.

Reynold Anderson of Sterling was a Polo visitor on Monday.

Dr. and Mrs. Fred B. Jones of Dixon were visitors at the home of the latter's parents, Mr. and Mrs. George Hey Saturday.

Ed Gaffney went to Dixon Saturday evening on business.

Miss Mildred who is attending school at normal spent the week end—here with her parents, Mr. and Mrs. Lewis Fager.

Miss Stata Burke went to Oregon Thursday to visit with relatives.

The marriage of Mrs. Nora Hurler and Walter Woollen occurred Saturday Oct. 9.

Miss Mary Johnson entertained at dinner Thursday evening the Misses Pearl Hedrick, Marjorie Hawkins, Sara Burke, Nina and Gledys Hildebrand.

Mr. and Mrs. James Hawkins and Mr. and Mrs. R. J. Held were Oregon visitors Friday.

Mrs. Albert Yates who has been visiting relatives in Sterling for a few days returned home Saturday evening.

Miss Verna Brand and friend of Milledgeville spent Sunday here with her cousin, O. B. Ringer and wife.

Mrs. John Smith went to Freeport Friday evening a guest of Mrs. Cyrus Carter. Mr. John Smith was Sunday evening.

Mrs. Martha Hedrick went to Normal Friday to visit her daughter, Mrs. Chester Miller and family.

Mr. and Mrs. Marshall Miller, Mr. and Mrs. Ed Miller of Freeport, were entertained at dinner Sunday at the home of Mr. and Mrs. George Smith.

Mr. and Mrs. Adolph Gralling spent last week Sunday with friends near Adeline.

Mr. and Mrs. Lloyd Folk and sons Richard, Theodore and Robert, motored to Rochelle Sunday and were the guests of Mr. and Mrs. Glenn Wilson.

A ball game between Polo and Freeport was held at the Polo grounds Sunday afternoon. The score was 9 to 3 in favor of Polo.

Mrs. J. C. Bloyer went to Freeport Friday for the day.

Rev. Leland of Dixon preached in

BEAUTY CULTURIST

For work done in Marcel waving, Massaging, Manicuring, Hair Singeing, Round Curl, and up-to-date Hairdressing, phone Y850.
MRS. QUINCY ADAMS
415 Depot Ave.

the Lutheran church Sunday morning and evening.

Mrs. Mary Griffin who has been visiting her son Roy Griffin and family at Buffalo, N. Y. returned home last week.

Mr. and Mrs. J. C. Bloyer went to Lanark last week Sunday to see their new grand daughter born to Mr. and Mrs. Russell Weed recently.

Dr. Albert Griffin is visiting his sister-in-law Mrs. Mary Griffin and nephew, Dr. L. M. Griffin and wife.

The members of the G. A. R., and their wives and all the war widows of '61 of Polo, were entertained at dinner Saturday in their hall. The guests of honor were Mr. and Mrs. J. W. Fuller, it being their second wedding anniversary. The afternoon was spent socially and will long be remembered by those present.

Mr. and Mrs. Al Johnson spent Sunday in Leaf River visiting with friends.

Miss Hazel Powell of Clinton, Iowa, spent the week end here with her parents, Mr. and Mrs. Lipton Powell, Sr. Mr. and Mrs. Hugh McDole and daughter Janet Elliza, of Sterling, spent from Saturday until Monday at the home of Mr. McDole's grand father, I. C. McDole.

Mr. and Mrs. Elmer Waterbury and Mr. and Mrs. Jasper Linde expect to leave soon on an extended trip to California, the trip to be made by auto.

The members of the congregation of the Methodist gave a reception Monday evening in the church parlors to Rev. Arthur Coates and family who has been returned to Polo by the Rock River general conference, as pastor of that church.

Benjamin Franklin Huffman was born Sept. 20, 1840 at Harrisburg, Dauphin county, Pa., and passed away at his home in Polo at 5 o'clock Wednesday morning, Oct. 6, 1920, aged 80 years and 16 days.

In the year 1861, he was united in

marriage to Miss Catherine Kissinger. To this union was born seven children, one daughter and two sons: T. J. Huffman of Dows, Iowa, M. N. Huffman of Storm Lake, Iowa, and Mrs. Porter Ormsby of Sterling. He leaves to mourn his departure his sorrowing wife, his daughter, two sons, nine grandchildren and five great grandchildren, one brother Isaac Huffman of Pennsylvania and a host of friends.

Early in the year of 1865, the Huffman family came to Illinois and settled north of Brookville in the Community of Chamber's Grove church. They attended the Chamber's Grove church until moving to Polo last February.

\$.50; all payable strictly in advance.
Single copies 5 cents.
OUR CANDIDATES
For President
WARREN G. HARDING
For Vice President
CALVIN COOLIDGE
THANKS FOR STREET SIGNS
For a number of years Dixon has
felt a great need for street signs. We
are now to have them. The signs are
ready and men have started work
erecting them, one on every street in-
tersection in the city.
This improvement will be greatly
appreciated, not only by Dixon people
but by visitors. The city commission
should be commended for its progres-
sive action.
HARDING, THE MAN
Warren G. Harding, and Calvin
Coolidge, standard bearers of the party
ticket will sweep this nation like a
prairie fire. It is going to be a Re-
publican landslide this time and it is
just and fitting. The Democratic party
has demonstrated in the most thor-
ough and complete manner that they
cannot be trusted with the reins of
government. They have hardly over-
looked an opportunity to bungle
things.
Why waste a lot of valuable space
relating the reasons why the Demo-
crats have forfeited the right to have
government control? Every reading,
thinking voter is fully acquainted with
the situation. Votes would be need-
ed to give the subject justice. We can
go so far as to give you the heads of a
few of the chapters that would be
necessary to tell the story. They
might read like this:
The High Cost of Living
Or How the Democratic Adminis-
tration in Washington Helped the
Profiteers to Plunder the People.
The Budget System
Enacted by the Republicans to stop
the deluge of waste and promptly vet-
ted by President Wilson.
Mr. Wilson at Court
Royal pageantry and dazzling
splendor—A suite of 1400—\$15,000,000
in gold plate—A dream of magnifi-
cence and expense from New York to
London and from London to Paris,
where the League of Nations was
born in all the pomp of imperialism.
British or American?
Bond or Free?
Article 19
of the
League of Nations
Which breaks our constitution,
wrecks our sovereignty and brings
war without end.
Why Taxes Pile Up
Or 760,000 on the payroll—\$20,000
more than in 1914—Dana squander
money in peace as they squandered in
war.
Mr. Wilson in Mexico
The fatal policy—Murder, ruin, rob-
bery and desolation left in the wake
of his deadly delusions.
Twenty-Five Cent Sugar
Why? Through the Negligence of
President Wilson and with the assent
of Atty. Gen. Palmer more than a bil-
lion dollars was extorted from the
American people, and handed to the
sugar profiteers.

ways cost the American People \$2-
275,000,000 in 26 months and the end
is not yet.
Money Mad Democracy
Amuck Among the Millions
And we might go on indefinitely, but
you know the story.
Your duty to yourself and to your
nation is plain enough. You must
help elect Warren G. Harding, Calvin
Coolidge, a Republican Congress and

BRINGING UP FATHER.

WHAT AMERICA COST

Senate and deliver America from in-
competence, internationalism and ex-
travagance.
Four hundred and twenty-eight
years ago in August there sailed from
Palos, a Spanish port, Christopher Col-
umbus and his gallant crew. And 428
years ago in September, the boys were
on their way over here. And, 428
years ago on October 12, they sighted
the dove and the floating green
branch that meant land. Talk about
"Sailing, sailing, over the bounding
main," Christopher Columbus and his
men had their fill of it on that trip.
And the cost of discovering this land
of ours—how the researchers and sta-
tisticians love to roll the figures under
their tongues—was just seven thou-
sand and "iron men," cold silver dollars.
And Queen Isabella, reports some-
times to the contrary, didn't pay all of
that; not even the biggest part. No.
Two brothers, Martin and Vincente
Pinxlin, real sporting gentlemen, not
only supplied two of the fleet of three
vessels, the Pinta and the Nina, but
paid for the equipment, too. Colum-
bus, you know commanded the Santa
Maria. Will the world ever forget his
ship? Never.
As to pay. Few soldiers or sailors
or would-be discoverers seem to care
to work without that. Well, Colum-
bus was paid at the rate of \$200 a
year, the Pinxlin Brothers \$150 a year,
and the crew about \$2.50 a month
each. Columbus paid out in pay alone
about \$4400. Other expenses, includ-
ing the cannon on three ships ran the
total outlay up to \$7000.
As the trip lasted from August of
one year until March of the next, with
the discovery of a new world as a fea-
ture, it may be said that never in his-
tory was \$7000 expended in a better
cause, no matter who supplied the du-
catus.
ITALY'S DEPENDENCE
"Make a revolution and die of star-
vation!" That was the warning of the
moderate Socialists to the radicals in
the Italian Socialist movement at the
last congress of the Socialist Party in
Italy. What the moderates meant was
that Italy cannot afford to feed her
own population but is entirely depend-
ent upon the world outside for food
imports. They meant that revolution in
Italy would mean blockade, as in
the case of Russia, and that Italy
would starve to death if the blockade
should be effective.
Striking confirmation of this predic-
tion is to be found in the official esti-
mates of Italian crops for 1920, just
made public by the Italian Ministry of
Agriculture.
Italy has always had to import
wheat. But next year, she must im-
port more than usual. For the 1920
crop, estimated at 4,006,500 tons, is
more than 600,000 tons short of the
1919 crop and is 760,000 tons short of
the ten-year average production for
1909-1919. The estimated production
of rye, 121,400 tons for 1920, is 8000
tons under the ten-year average. The
barley crop, estimated at 132,000 tons
for 1920, is likewise away under the
ten-year average; and the \$32,700-ton
oat crop estimated for 1920, compares
very unfavorably with three ten-year
average of \$65,400.
It is a dark outlook in any case.
Will Italian labor listen to the exten-
sionists who say that the allies will
never dare blockade Italy if the revolution
is made, or that supplies can be got from
Russia in any case? The decision is
not yet made. It will be a portentous
one for Italy and the world as well
when it is made.
Whether they convict those ball
players or not, they got rid of them
and that's the main thing.
Such is
Life
There's a man down east who for
28 years has been making a living—
and a good one—thinking up things
bright children ought to say—but
don't.
He has had much to do with the
world's getting the hunch that kids
spring the most wonderful kind of
jokes on their parents and other nat-

ADVENTURES OF THE TWINS

EVERYBODY HELPS.
"You'll all have to help me to cure
Markie Muskrat!" said Dr. Mink when
he had examined Markie to see why
he couldn't move. You know when
Markie was to go up front in the Mea-
dow Grove School and say his piece
because company was there, he
couldn't budge. Why? Because he'd
sat down on his chewing-gum. But
nobody knew it, certainly not Mr.
Scribble Scratch, the fairy schoolmas-
ter.
"Yes, yes!" cried everybody eager-
ly.
The highest corn-stalk in the sweet
patch, pick the largest grain of corn,
and bring it here?"
Judge Crow agreed at once and flew
right out.
Mr. Double U. Chuck was sent for
sassafras root, and off he went.
Scamper Squirrel was to hunt the
least prickly chestnut burr he could
find, Cutie Cottontail was to get a
lettuce leaf.
Flop Fieldmouse was to bring a
wheat-stalk. Muff Mole, some moss,
and Chip Chimpunk, buckwheat. Sar-

"QUICK," CRIED DR. MINK, "LET ME HAVE YOUR SCISSORS."
Ann Spider and Freddie Frog were to
bring a fly apiece if they could find
any—not counting Buddy Blue Bottle.
Pretty soon Meadow Grove School
was as empty as if it were Saturday,
except for Nancy, Dr. Mink, and poor
Markie Muskrat himself.
"Quick," cried Dr. Mink when the
last pupil had disappeared. "Let me
have your scissors, Nancy!"
Nancy handed them over, and snip,
snip, snip! Markie was free at last.

Confessions of a Bride

THE BOOK OF ANN.
BOB FINDS A DIPLOMATIC WAY
TO KEEP ME FROM SMOKING.
Bob made no comments on the cig-
aret incident as we walked home un-
der the light of the moon. It was a
magnificent evening, but Cynthia her-
self couldn't have aroused Bob from
his gloom that night. My domestic
happiness had been seriously jeopard-
ized at rather regular intervals ever
since I had been married.
From much bitter experience, I
should have learned to avoid the dan-
gerous conflict between Bob's moods
and my own pride. Many times had
I made a compact with myself:
"Let other wives proceed according
to their own light. Let them assert
themselves as independent feminists
in the new way, or obey their hus-
bands fondly and blindly as in the old
way; I am for both ways—or either
way—or neither—I'm for any way
which will maintain my home in per-
petual peace."
For if I didn't succeed as a home-
maker, I couldn't see what work of
importance I had in the world. Each
day ought to see me adding one solid
bit of construction to my domestic
happiness. That's the wife's business,
quite as much as it is the man's to
add a mite to his prosperity account
every day. But in spite of my earnest
efforts, and almost before I realized
what was happening Bob and I were
at odds again!
Bob had absolutely refused to be
surprised because I had learned to
smoke! He was neither amused nor
shocked!
But he seemed to enjoy his own cig-

The CHENEY
What Seat do you Prefer at the Opera?
When you sit close to the stage you hear the
music in its full volume. As you move away, you
lose none of its beauty, richness and expression
—it is just as clear, but its intensity is softened.
You will secure the same effect with the tone
control of THE CHENEY. You can enjoy each
selection exactly as you would most prefer to
hear it in the theatre. Because of this wonderful
advantage, THE CHENEY is the perfect instrument
for bringing grand opera, lighter opera and all
music into your home.
Let us show you how THE CHENEY's reproducer,
the tone arm, acoustic throat, orchestral chambers
and violin resonator also increase the charm of
its music. If you cannot call, send the coupon
for the interesting CHENEY booklet.

ABANDONMENT OF S. D. & E. INTIMATED BY MR. ALEXANDER

Tells Sterling Council Tracks May Be Torn Up and Junked.

That the Sterling, Dixon & Eastern Electric Railway Company is working to the end of tearing up the street railway tracks in Sterling and Dixon and the interurban tracks between the two cities and sell the property for so much junk was the intimation of Vice President E. D. Alexander, who was in Sterling Thursday afternoon in conference with the members of the city council on matters pertaining to much needed improvements to the physical property of the company in this city, says the Sterling Gazette.

"I recommended that the street car and interurban lines be junked a year ago," said Mr. Alexander in the heat of an argument with Mayor Overholser, who was insistent in his demands that the property be repaired and put in condition for safe and comfortable service.

"An expert engineer went over the lines, too, and his report to the directors was that the property should be junked," continued Mr. Alexander. "But of course we know we can't take this step without a hearing before the State Public Utilities Commission."

It is not believed that Vice President Alexander intended to impart this information to the city in the conference Thursday afternoon, but did so under the pressure of excitement and demands made by the city of Sterling for repairs to the street car lines in this city, the Gazette continues.

Bad places in the tracks, even unto danger of life and limb to patrons of the street cars and traffic, pointed out

to Vice President Alexander by the city commissioners were affirmed by Alva W. Courmyer, superintendent of the S. D. & E. Railway, who was also in the conference.

Admits Conditions
"I know just as well as you do that it is a disgraceful situation to have to run traffic over the tracks," said Mr. Alexander addressing the commissioners. "But the company is unable to remedy it—we haven't the money. If you can point out any feasible way we can get the money, we'll fix up the tracks and property. Personally, I see no way of getting the money. However, I will take the matter of the improvements up before the board of directors and if they can arrange any way to finance the work, all well and good. If they can't, I don't see any way out, except to junk it."

That the most expedient way to bring the controversy to a head was for the city to make a written report of the existing conditions of the S. D. & E. property, together with its demands in the way of improvement, and send the same to him for record to be presented before the board of directors at their next meeting, was the suggestion of Vice President Alexander. In this way it will be possible to estimate just how much the needed improvements will cost, he said, and I can give board definite facts. The directors can then decide to junk the road, subject to the approval of the State Public Utilities Commission, or they can decide on what improvements they can make.

Company Has No Money
"The railway at present has no money and I don't know where they can get any," said Mr. Alexander, "but if the directors can find some way to finance the proposed improvements I am heartily in favor of it. But it's a cinch you can't get blood out of a turnip."

Taking the railway company's figures, showing the receipts of \$10,800 of the electric line in Sterling for last year, Mayor Overholser asked to be shown how it had cost an aggregate of that much money to operate the cars in this city. Surely but very little of this sum was spent for upkeep of the property of the company in Sterling, said the mayor, and the overhead ex-

ABE MARTIN.

Well, anyhow, th' high cost o' "fixin'" has come down. It pays t' advertise, unless you git a wife that way.

pense is extremely light with but few employees.

"I don't believe that it cost \$10,800 to operate the street cars in Sterling last year," said Mayor Overholser emphatically, "and you'll have to show me the figures to prove that it did cost that much. What I want to know is, what did the company do with the profits made from the line in Sterling? It wasn't spent in Sterling on improvements. The city is not looking to the junking of the street car line. All it wants is the tracks repaired, the property put in good condition and good service."

Harmon Farmers in Princeton Courts; Cost Them Over \$50

Mendota Sun-Bulletin: Henry Dietz and Jake Rodenbaugh, prominent Lee county farmers residing at Harmon, were arrested Monday and taken to Princeton for trial for joyriding on the public highways while intoxicated. Dietz pleaded guilty and was fined \$15 and costs by Judge J. R. Prichard in the county court for driving an automobile while intoxicated and Rodenbaugh was arraigned for disorderly conduct in the justice court and fined a like amount by Judge Dunbar. It cost them about \$50 each to settle with the courts.

The arrest of Dietz and Rodenbaugh is the climax of an automobile accident which happened between La Motte and Ohio a couple of weeks ago while Dietz and three companions were returning from a ball game at Earlville. Their car hit a concrete culvert and was wrecked. Howard Anderson, an Ohio farmer, who came along about the time the accident occurred, was attacked by Rodenbaugh, who climbed onto the hood of his machine and smashed the windshield, because he thought it was Anderson's bright lights that caused the smash up. Anderson, who was accompanied by his wife, claims that when the Harmon car hit the abutment, he was nearly two miles away. He came to Princeton and had a warrant sworn out for Rodenbaugh and also filed complaint against the driver.

Dixon Boy Member College Glee Club

(Special to The Telegraph.)
Galesburg, Ill., Oct. 16.—Philip Raymond, a Dixon youth now taking his last year at Knox college, was recently successful in the try-outs for the College Glee club. He will sing the part of second tenor. Raymond was also manager of the baseball nine last year. He will graduate in June.

MOTOR NOTES

LESS WEIGHT, LOWER SPEED TO SAVE GAS

Oil Company Sees Big of U. S. Autos. Waste in Construction

To get more miles out of a gallon of gasoline, automobiles should be made lighter and should be geared down to 25 or 30 miles an hour. That is the opinion of a writer in The Lamp, official organ of the Standard Oil Co. of New Jersey, who adds that such a motor car could be made to average from 25 to 30 miles to each gallon of fuel used.

"The United States is the only country in the whole world that insists on high-powered, heavy motor cars," says the writer. "It is time that we stopped it. The man who gets from six to eight miles from a gallon of gasoline in order to have a reserve power for occasional use that will enable him to push his car along the road at from 50 to 75 miles an hour, is an offender against the public good."

"For all practical purposes an automobile that makes 25 to 30 miles an hour would serve every need. Such a car could be made to average better than 25 miles and probably closer to 30 miles on every gallon of gasoline."

An additional gain in the efficiency of the motor car, says this writer, could be had from the use of a higher gear ratio and a fourth speed. "Under ordinary driving conditions," he explains, a six-cylinder, 30-horse-power motor with a car doing 20 miles an hour will make from 700 to 1000 revolutions a minute, depending on the gear ratio and the diameter of the wheels. Under these conditions the engine is operating at low efficiency. If the car were equipped with a fourth geared-up speed for level roads, the motor speed in this case

KEEP THIS IN FRONT OF YOU AT ALL TIMES.

Here is a set of ten cardinal points for driving, with which every automobile owner should be thoroughly acquainted. Study them, then cut them out and paste it up in front of you, either on the dashboard or on the windshield. Follow them closely and you should never have any trouble at the wheel.

BE CAUTIOUS.

- 1.—Shift to second when crossing railroad tracks; you might stall on high.
- 2.—Give children in streets wide berth and drive slowly.
- 3.—Extend your arm before stopping or turning.
- 4.—Blow horn on passing a street car going the other way.
- 5.—Blow horn on nearing the top of a hill.
- 6.—Pass overtaken vehicles on left, blowing horn as warning.
- 7.—Do not blow horn for aged persons or children.
- 8.—In case of accident, render aid if possible, get names of witnesses and do not talk; court action may follow.
- 9.—Use your engine going down a steep or long hill, do not rely on your brakes.
- 10.—What the traffic officer tells you to do and don't talk back.

DRIVE CAREFULLY.

RUBBER INDUSTRY IS 100 YEARS OLD.

Beginning with the importation of rubber into England as a curio. In 1820 this product of the tropics has jumped to such importance in 100 years as to make the industry one of the greatest in the world.

It was in the summer of 1820 when rough lumps of "caoutchou," as rubber was then known, were imported into England, solely as curios. In that year, an Englishman named Thomas Hancock established a laboratory in his home and experimented on the elastic properties of the rubber. He

to church regularly and punctually because he has a soul—rather is a soul—that needs nourishment. Church attendance is the real person dining.

ST. PAUL'S LUTHERAN CHURCH

Rev. Lloyd W. Walter, Pastor. After the splendid Rally Day of two weeks ago and the blessed Communion of last Sunday will we continue to show our interest and appreciation by regularly attending church and Sunday School? Is our interest and devotion only for a day? It cannot be true that men and women will treat God lightly.

Sunday School 9:45 a. m. Supt. W. E. White. Morning Service 11 a. m. Sermon Theme: "Redeeming the Time." Luther League 6:30 p. m. Topic: "Principles in Politics." Evening Service 7:30 p. m. Theme: "Living for Others."

CONGREGATIONAL CHURCH

Rev. G. H. Putnam, Pastor. Sunday School 9:45 a. m. L. Wilson, Supt. Morning Service 11:00. Sermon by the pastor. Evening service 7:30 Sermon by the pastor. You are cordially invited to attend these services.

ST. LUKE'S EPISCOPAL CHURCH

Rev. H. M. Babin, Rector. 8:00 a. m. Celebration of the Holy Communion. 9:30 a. m. Sunday School. 10:45 a. m. Morning service and sermon. Subject: "Christian Instincts."

PRESBYTERIAN CHURCH

The stone church on the square. Rev. Jesse M. Tidball, Pastor. 9:45 Sunday School. Classes for everybody. 10:45 Morning Worship. The pastor will preach on question "How to Account for the Good in Human Life." 7:30 Evening Service. "The Foundations of Religion." Prayer meeting this week will be in charge of the Missionary society with an open meeting. Take yourself to dinner. One goes

OUCH! SUCH PAIN!

It Takes You Right in the Back!

SOMETIMES IN THE ARM, HIP OR FOOT.

It's all due to an over-abundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking Anurio. This can be obtained at almost any drug store, in tablet form.

LAPORTE, IND.—"I suffered for nearly a year with sciatica. I was unable to work for two months in the spring and about three weeks in the fall. I took electric treatment and several different kinds of medicine but got no relief until I came into possession of a bottle of Doctor Pierce's Anurio (anti-uric acid) Tablets, which I took in accordance with directions. One week after I started taking Anurio I went back to work in a greatly improved condition, and to-day, no matter what the weather is I have no pain from sciatica, so I will recommend the Anurio Tablets to all who are suffering from rheumatism."

—LAW HINZE, 425 Washington Street

Kennedy Music Co. 164 Galena Ave.

made strips to keep stockings and gloves in place and also to keep pockets from being picked.

With the advent of the automobile, the rubber industry made its greatest strides. Some indication of the increase in the last two decades of the consumption of raw material for rubber products may be seen from the fact that in 1900 the world's production of crude rubber was 53,890 long tons, while last year it was 290,000 long tons.

The production of rubber products in the United States last year amounted to a value of \$67,204,000.

PLAN TO PARK CARS IN SUBWAY GARAGES.

Chicago.—The plan of former Mayor Carter Harrison, 1913, to relieve the traffic congestion of the city by parking automobiles in subway garages has been revived and is receiving more attention than heretofore.

Mayor Harrison's idea was to dig underneath Grant Park on the lake front, for the construction of seven garages each the size of a city block. A four-foot layer of loam on the concrete roof would permit of the maintenance of the park practically as it was before.

Each garage would have a capacity of 225 cars. The entrance and exit would be on opposite sides so that traffic would be one way. On entering the motorist would receive the number of his stall and the key to a locker in the parking space for storage of loose articles.

The original estimate of the cost of such a system was \$125,000 for each garage.

AUTO-TALK

REMOVING SPARK PLUGS.

Using a monkey wrench to remove a spark plug lays the plug open to liability of being broken. A socket wrench should be used for this purpose. It just fits around the plug and protects the core from accident.

Carpentier Given License By State

New York, Oct. 15.—Several prominent boxers and managers have been granted licenses by the New York state boxing commission, that body announced today.

Georges Carpentier and his manager, Francis Descamps, were among them. Followers of boxing were inclined to believe that this indicated an intention on the part of Carpentier to box in this state during the next few months.

Why Stay Fat?

The answer of most fat people is that exercise and dieting is too hard, too troublesome and too dangerous a method to force the weight down. However, in Marmola Prescription Tablets, all these difficulties are overcome. They are absolutely harmless, entail no dieting or violent exercise, and have the added advantage of cheapness. One little tablet after each meal and at bedtime—as pleasant to eat as candy—will reduce your weight two, three or four pounds a week, and leave no bad results such as wrinkles or flabby skin. A good size box is sold by druggists at the reasonable price of one dollar, or, if preferable, they may be obtained by sending the amount to the Marmola Co., 64 Garfield Building, Detroit, Mich. We will reach you by mail, prepaid, in plain, sealed cover.

Now that you know this you have no excuse for being too fat, but can reduce two, three or four pounds a week without fear of bad after-effects.

SALTS IN HOT WATER CLEARS PIMPLY SKIN

Says we must make kidneys clean the blood and pimples disappear.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grape and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanse the blood and is excellent for the kidneys as well.

Coolidge Silent on Roosevelt Challenge

New York, Oct. 15.—Governor Coolidge of Massachusetts republican candidate for vice president, declared he had "nothing to say at present" when asked this morning whether he would accept the challenge for a joint debate on the league of nations issued last night by his democratic opponent, Franklin D. Roosevelt, at Evansville, Ind.

Governor Coolidge later said that the challenge for a joint debate on the league of nations issued by Franklin D. Roosevelt, had not yet "reached him," adding that if it did he "would see what he could do about it."

Governor Coolidge, who is about to begin a southern speaking tour, said that he believed that the republicans have "a very good chance of carrying Maryland and Kentucky and better than an even chance of gaining a majority in Tennessee." He said he did not believe the republicans could carry Virginia.

Governor Coolidge said he was received letters from voters all over the country stating that they were going

DOWN STEEP HILLS.

In going down steep hills which are usually long, the engine should be used as a brake. The throttle can be kept closed to save gasoline. If greater braking effort is desired, open the switch to stop the ignition.

The new eight-cylinder LaFayette contains the latest attempt to remove vibration from automobile motors. Instead of the conventional three main bearings, D. McCall White, designer of the LaFayette, has given his motor five. In this case, every crank throw and connecting rod is between two main bearings, making the shaft so rigid as to practically eliminate vibration at all speeds.

REMEDYING THE IGNITION.

The best way to locate any electrical trouble is to begin at one end of the ignition system and work step by step to the other end. Start with the spark plugs, and if these are found in good condition go on to the wiring and terminal connections. Inspect the distributor case next for dirt or carbon dust. If the trouble is here it can be remedied by wiping with a clean rag.

FROM FORTY-FIVE TO SIXTY

A Word of Help to Women of Middle Age From Mrs. Raney.

Morse, Okla.—"When I was 45 years old Lydia E. Pinkham's Vegetable Compound carried me through the critical period of the Change of Life in safety. I am over 60 and have raised a family of eight children and am in fine health. My daughter and daughters-in-law recommend your Vegetable Compound and I still take it occasionally myself. You are at liberty to use my name if you wish."—Mrs. ALICE RANEY, Morse, Oklahoma.

Change of Life is one of the most critical periods of a woman's existence. This good old-fashioned root and herb remedy may be relied upon to overcome the distressing symptoms which accompany it and women everywhere should remember that there is no other remedy known to carry women so successfully through this trying period as Lydia E. Pinkham's Vegetable Compound. If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Look and Feel Clean, Sweet and Fresh Every Day

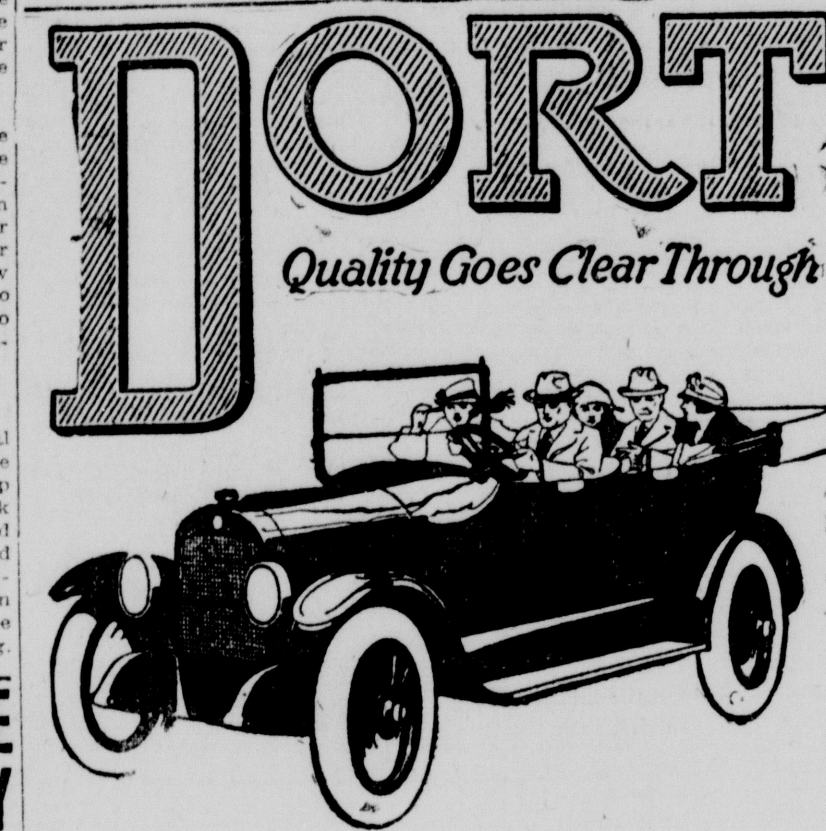

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foot tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully interesting. It cleanses out all the sour fermentations, passes waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Able Performance Low Mileage Cost

You will find the Dort an alert, agile, graceful car that handles with delightful ease.

Unusually long springs, a staunch frame, and restful upholstery combine to make it a fatigue-less car to drive.

The simply-designed, powerful Dort motor pulls with smoothness and delivers full power to the wheels all the time.

The Dort construction throughout is so accessible that service can be given any part very readily and inexpensively.

The entire assembly of the Dort chassis reflects the deliberate effort of the Dort engineers to keep operative and upkeep expense at the very lowest point.

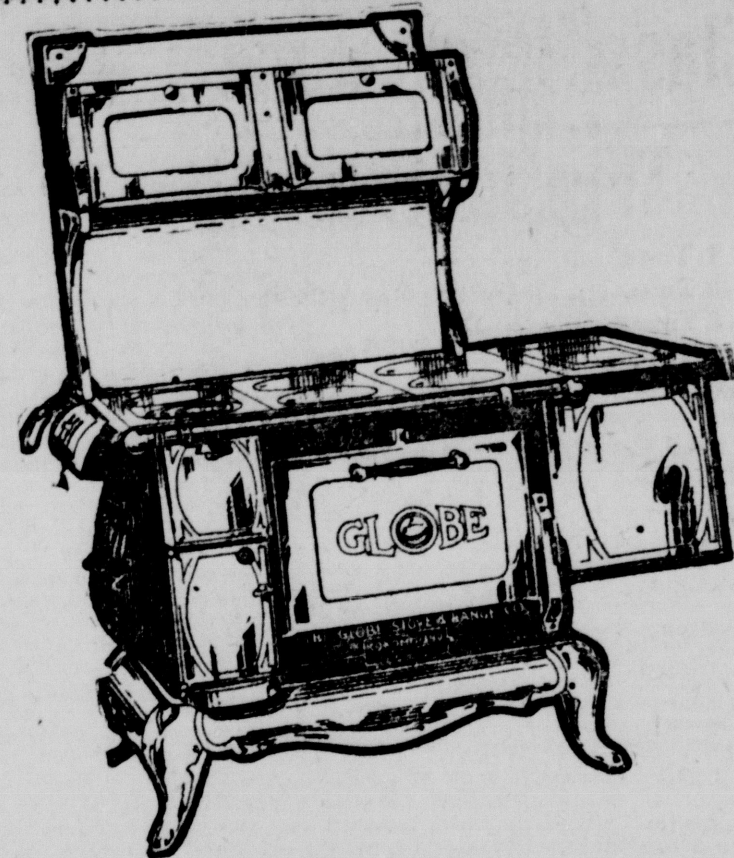

Its steadily growing popularity throughout the country can be construed as nothing short of undeniable proof that the car is actually a remarkable investment.

As you check off one by one the points of Dort construction and Dort performance you cannot help but be impressed.

Today, with many good cars on the market, the Dort stands out as an exceptional car and an uncommonly desirable investment for you.

Back of its national reputation for long and loyal service at a very low cost per mile is the satisfactory experience of more than 75,000 owners.

WILL ROGERS (HIMSELF) Jokes by ROGERS

Pro-Leaguers Back It with Money; Is Defy to Republicans

New York, Oct. 15.—Democratic national headquarters today announced a cash prize of \$25,000 had been offered by the pro-league independents to Senator Harding, Senator Johnson, Senator Borah, Senator Lodge, Chairman Hays of the republican national committee or anybody else in the United States who could first prove that the League of Nations would "abridge the sovereignty of America."

Professor Irving Fisher of Yale University, chairman of the pro-league independents, explained that, under terms of the offer, essays must be received by mail or wire at 17 East Forty-first street, New York City, by October 22; that each member of a jury of twelve citizens would be appointed jointly by George White and Will H. Hays, chairman of the democratic and republican national committees—all to be republican if desired by Mr. Hays; and that in case the jury was not unanimous, half the prize still may be awarded, provided a majority of the jurors so vote.

"This announcement is intended for every newspaper in the United States," Professor Fisher said, and is being given for distribution to the various press associations, with the request that each newspaper publishing it, send to the pro-league independents here, a marked copy of the issue containing it, so that the independents may report on how many newspapers of each party publish or fail to publish it.

"If Mr. Hays admits that such statements and notions are unproved, unprovable, untrue and absurd, he is respectfully asked to publicly so state, and also to publicly state that he is requesting his speakers, press bureau, and republican newspapers to cease making such false statements."

A novel fly swatter has two wings which are snapper together to catch an insect in flight.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Decay-Proof Fence Posts

"My fencing is up to stay—thanks to Long-Bell Creosoted Yellow Pine Posts—the kind that last a lifetime."

This is the united opinion of farm owners everywhere who are now using Long-Bell Creosoted Posts instead of the ordinary kind that rot and decay after a few years.

CREOSOTED POSTS Yellow Pine

Our posts are cut from selected trees of slow growth, air dried and yard seasoned, and treated by the Long-Bell vacuum creosoting process until distilled creosote is forced into every part of the sap wood. The germ of decay is killed, every fibre of the post is protected—there's no decay.

Send at once for Free Circular regarding "The Post Everlasting"—and learn how to end all your post and fence troubles and save from \$50.00 each year now spent in repairs and replacements.

WHAT'S NEWS TODAY? Drawings by GROVE

"ONKIE" MUST DIE: HE'S TOO FEROCIOUS.

London.—"Onkie" is under sentence of death and there is grief in "Onkie's" home. Eighteen months ago

"Onkie," a terrier, jumped against two small children. Recently he was given a trial and the judge condemned him to die on the ground he is ferocious. "All never forget how much

comfort "Onkie" was to me when my baby died," says his mistress, Mrs. Charles Birch. "He's not ferocious. He was a puppy then and just playful."

The government of the Federated States is adding private experiments in the production of rubber seed oil, a substitute for linseed oil, on a commercial basis.

LET'S GO TO LEWIS FLOTO'S 18TH ANNUAL SALE OF PURE BRED

Duroc Jersey Hogs

4 miles northwest of Mount Morris on

SATURDAY, OCTOBER 23, 1920

Sale starting at 1:00 o'clock, lunch at noon

28 Bars and 17 Gilts

A very promising lot of 28 Bars and 17 Gilts that are not related. Here will be an opportunity to get a start as I believe this offering will eclipse all past offerings.

They are sired by Jury 333861, our mammoth herd boar who will easily develop into a 1,000 pound hog, and Green Valley Wonder 228955, and J. P.'s King 295275.

The dams are sired by Chief Governor 272067, Profit Orion 279849 and Sunlight Chief 80371A.

I do not believe that the Duroc business was ever on a firmer foundation than at the present time, nor was there ever a better opportunity to buy animals of the right class than at the present time. I assure you that your presence will be appreciated and I have a firm belief that the animals offered will make money in the future. A purebred is better than a grade.

GUARANTEE—Every animal guaranteed a breeder. Pedigrees ready sale day. Send for catalogue. Crates furnished for shipping only.

TERMS—Cash.

BLOSSER

NEWS FROM DIXON

In the spring a young man's fancy lightly turns to thoughts, etc., but in the fall the business men turn to volleyball and not lightly either but with a vim and pep that has everything else backed off the map. Not only do they play the game but they talk it, argue it and even write about it. They've just got to tell the world about it and spend their spare time trying to induce others to take up the game. Some even talk volleyball in their sleep. One of the wildest of the Volleyers just couldn't talk enough so he got busy with a pen and these are his ideas and thoughts on the game.

(Note—Others will tell in a few words later on, what they think of Gym Class, Volley Ball, etc.)
A Few Thoughts on the Grand Old Game.

By Archibald M. Rawls.
The volleyball season has opened and there is a noisy gathering at the "Y" on Wednesday, Friday and Saturday evenings at 5 bells. The volleyball "fends" are beginning to show signs of life, they have not been dead, just dormant, and it will only take a good cold snap to get them fully awake to the fact that volleyball has begun. But volleyball players can utter some unkind words to an umpire—I know—I've tried it. I thought that I was honest—I admitted it—until I tried that umpire stuff. Now I'm in doubt.

You know all volleyball players are honest. They all admit it themselves. They don't always mean to be, but

they just can't help it, there are too many watching 'em. If you would like to learn to make front porch speeches, and to get all the latest points on arguing, that is to argue so that you win, just get into a volleyball game. There are only a few simple rules to follow in playing the old game, some are as follows:

Don't hit the ball hard enough to put stone bruises on it or to drive it thru the wall. Brick is expensive.

Don't become so entangled in the net that you can't get loose by the time the ball gets back on your side or the umpire has time to see you.

If you are dissatisfied with an umpire's decision, tell him about it in no uncertain tones. Talk to him in an unkind a manner as you can—it's all the good it will do you.

Last but not least don't forget the shower bath after the game, also to fight the game over again and to argue out all points before leaving the locker room. Thanks.

NOBODY HOME! SO ROY GOES FREE.
Frankfort, Ky.—You have to be at home to be lawfully pinched for hicker making here. Roy Youmans summoned to court because officers found a still and whisky in his cellar was acquitted because the court of appeals held that it was unlawful for the cops to enter Roy's house while he wasn't home.

TRANSFER.
We are now well fixed to do long distance hauling. If you have out of town trips, call and let us figure with you. Freight service is slow and expensive. Try us.

DIXON FRUIT CO.

Immigrant Given Praise By Farmer Labor Candidates

Waterloo, Ia., Oct. 15.—Parley P. Christensen, farmer-labor candidate for president, today praised the immigrant and emphasized Scandinavian contributions to the political progressivism of the west in a speech here.

"There are people," he said, "who want the immigrant rushed to some plant where every vestige of his past traditions shall be removed. They would have him geographically washed and sterilized as soon as he steps on Ellis Island."

"I believe that we can so fashion the institutions of this country that the immigrant will of his own accord, freely and cheerfully avail himself of the opportunity to count himself an American."

"I never see an immigrant, hear his broken speech, so often derided, but feel that debt the native born owe to these men. Out here in these states

of Iowa, Minnesota, Illinois and the west in general, the ferment of development has been most stirring. Many of these things proposed by the farmer-labor party have been tried out in European countries and many have heard their parents or their friends, as the case may be, tell about their success over there."

Mr. Christensen here detailed the various state owned industries in Norway as transportation, telegraph lines, traction companies and banks.

"HAPPINESS" BREAKS UP THEIR HOME.
Spokane.—It was the play, "Happiness" that broke up the Barney home here. So L. Barney and his wife, Letha Barney, testified in divorce court. "We had our first scrap over that play," says Barney, "and Judge, we've been fighting ever since. Judge Blake declined the decree."

Nearly 21 per cent of the stock of the Pennsylvania railroad is held by women.

EFFICIENT SERVICE
